Hello,

Yes. The motion is in one of your other e-mails and we will be referencing the adopted motion with respect to all the applicable fees for the dedication processing of the 'lots'.

I assume that no one else in the Bureau of Engineering is working on the dedication processing as of this time. If that is the case, Kathleen will most likely take the lead in providing you with the necessary documents.

Is the attached Motion presented by Councilman Rosendahl and seconded by Councilwoman Hahn relevant to our discussions about the strip lots?
